- ✓ Sourcing / Buying
- ✓ Leasing
- ✓ Innovative Products

Logistic Services

- ✓ Consultancy
- ✓ Effective Logistic Solutions
- ✓ Door to Door Services

GSE Maintenance

- ✓ After Sales Support
- ✓ Transportation Services
- ✓ Spare-Parts Sourcing

CHS

- ✓ Operation
- ✓ Maintenance
- ✓ Sourcing Solutions

Cargo Handling **SERVICES**

TCT has managed to sign a contract for the ETV maintenance & operation with SAL (Saudi Cargo Company) in King Khaled International Airport in Riyadh station, Saudi Arabia

GSE MAINTENANCE

As a result of our ETV operation with SAL, TCT has established a new Maintenance Division in GSE.

The objective is:

- ✓ Enhance our international partners trust and their after sales support
- ✓ Provide full GSE maintenance services (corrective & preventative) for our local companies in Saudi Arabia.

TCT maintenance team currently located in Riyadh city and it include experienced personal in handling all types of ground service equipments (GSE) and have been exposed to work with several GSE brands.

Logistic SERVICES

TCT has introduced Logistic Services Department back in early 2019.

The aim of this new department is:

- ✓ Consultancy
- ✓ Provide the most effective and sufficient shipment's clearance delivery process
- ✓ Help our international partners to send their equipments/products to its destination in Saudi Arabia with full satisfaction.

 **AERO
SPECIALTIES**
(Part of Alvest Group)

- ✓ Mechanical, hydraulic, electricity, painting, certifications.
- ✓ Maintenance support and management
- ✓ Fleet management

OEM Support

- ✓ Construction of an Iberia hangar at Barcelona Airport
- ✓ Facility management and production machinery maintenance for Airbus

ULD / Cargo Handling Equipment / Solutions / Systems

With air traffic predicted to grow at an average rate of 8% per year, and in some areas even up to 20%, the amount of air cargo flown around will also increase tremendously. As a result, companies involved with air cargo face growing challenges on how to organize this and how to get cargo from and to their customers safely and on time. For this, SACO backed by more than 50 years of experience, offers ULD handling solutions ranging from basic systems for manual maneuvering to fully mechanized and automated systems.

Based in Mierlo, The Netherlands, SACO designs, manufactures and supplies turnkey Cargo Handling Equipment and Systems. Due to the modular design of SACO's units, it is easy to move, modify, extend and upgrade an existing system in phases when cargo volumes grow. Users can adjust investments to their needs.

Full after sales support, tailor made maintenance solutions and 24-hours service ensure a high performance standard throughout the system's entire life span.

SACO's systems have been successfully supplied and commissioned in many European countries, but also in India, Indonesia, Russia, U.A.E., USA, Canada, Curacao, Rwanda and Ethiopia.

Pioneers of Innovation

While we are known for being the first to introduce fast charging to the motive power industry over 15 years ago, Minit Charger has proven to be a leader in innovation throughout the entire mobile asset industry with our comprehensive line of battery, charger and equipment management products and solutions.

In addition to our premier fast chargers and monitoring products, our web-based software platform, AssetPro 360, exists to help you identify and addresses the specific causes that could be hurting your operations, equipment and ultimately your bottom line.

Products

We offer a complete line of chargers and battery/fleet management solutions to ensure your operations continue to run safely and efficiently for ultimate cost saving benefits.

Ground Support

Rugged fast charging solutions created for the demanding area of electric ground support equipment (eGSE).

- CellTrac - Our battery management device monitors and measures key parameters of batteries so proactive steps can be taken.
- Altus - Universal fast charger created for airport ground support equipment and the harsh environments in which they operate.

Material Handling

Intelligent fast charging solutions designed to quickly charge any size forklift fleet.

- Momentum - The most innovative charger - in technology, efficiency and aesthetics, built using Silicon Carbide (SiC) technology to enhance performance and drive down cost.

usimat sermees

Usimat sermees provides its customers with complete range of towable GSE in answer to every specific needs and in accordance with the best standard.

Products:

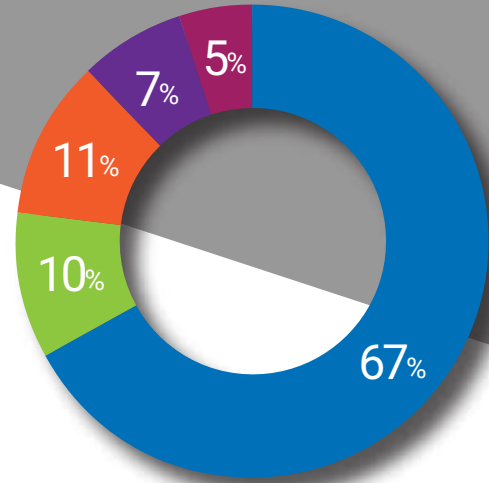

- ✓ TOWBARS
- ✓ Non-motorized GSE
- ✓ Water Service Cart
- ✓ Toilet Service Cart
- ✓ Water Drain Cart
- ✓ Fuel Bowser
- ✓ De-icing Dolly
- ✓ Nitrogen & Oxygen Cart
- ✓ Aircraft Wheel Pressure Adjustment
- ✓ Technical Stairs
- ✓ Aircraft Wheel Elevator Dolly

ADHETEC

adhesive solutions
(Part of Alvest Group)

- ✓ ADHETEC is a recognized aerospace adhesive solution provider worldwide.
- ✓ For over 40 years, the company has delivered patented & OEM qualified adhesive foils dedicated to aircraft exterior and cabin customization.
- ✓ With our aerospace adhesive solutions we enable faster and easier aircraft decoration operations while delivering outstanding, repeatable & durable graphics
- ✓ Our customers are OEMs, international airlines, MROs, Design Organizations, and aircraft leasing companies

DOLL

- ✓ German quality
- ✓ Founded in 1878
- ✓ 140 years experience in building quality machines
- ✓ Business sectors:
 - ✓ Timber & Forestry Transport Equipment
 - ✓ Heavy Transport
 - ✓ Wind vane Transport
 - ✓ Airport Equipment
 - ✓ Defense

Airport Equipments:

- Catering Trucks
- Medical Lifts
- Cleaning lifts
- Recovery vehicles

ADVEEZ Applications

- ✓ Airports
- ✓ MRO
- ✓ Harbors
- ✓ Railways
- ✓ Industrial Sites
- ✓ OEM

Airports

Increase operational efficiency and optimize turnaround management with our indoor & outdoor fleet management and speed control systems.

Products:

- ✓ Fleet Management solutions for powered Ground Support Equipment
- ✓ Indoor/outdoor tracking for unpowered Ground Support Equipment
- ✓ Automatic Speed Reduction on the ramp or inside baggage halls or any hazardous area

Railways

Track any asset inside and outside, Optimize your operations maintenance, Improve your workforce safety on site, Enhance your digital transformation

Products:

- ✓Fleet management solutions for powered assets
- ✓Indoor & Outdoor Tracking for unpowered tooling in Warehouses
- ✓Outdoor automatic speed reduction

Industrial Sites

Enhance safety on site, Improve operation management and efficiency, Enhance your digital transformation - Industry 4.0

Products:

- ✓Fleet management solutions for powered assets
- ✓Indoor & Outdoor Tracking for unpowered high value tooling
- ✓Automatic speed reduction in low visibility area

MRO

Track any equipment easily inside and outside large hangars, warehouse to enhance your operation efficiency and digital transformation (Industry 4.0)

Products:

- ✓ Indoor & Outdoor Tracking for unpowered equipment
- ✓ Fleet management solutions for powered equipment

Harbors

Enhance safety on terminals, Optimize your operation turnaround, Improve your predictive maintenance, reducing equipment downtime.

Products:

- ✓ Outdoor Tracking solutions for unpowered assets
- ✓ Fleet management solutions for powered assets
- ✓ Safety dynamic zones

✓ Hardware, Software & Mobile APP Solutions for People and Assets Management

✓ Pioneer development in digitizing everyday business activities

✓ Make all digital information reliable and accessible

✓ Bring actionable meaning to captured data
